SKILLS

Programming Languages : Java

Backend: Spring Boot, REST APIs,
Spring Data JPA, Hibernate, JDBC

Database: SQL

Tools: Git, GitHub, Postman

EDUCATION

Velammal College of Engineering and Technology

B.E Computer Science And
Engineering

2021-2025

CGPA : 7.8

New Power Matric Hr Sec School

HSC

2020-2021

88.5 %

Vivekanada Higher Secondary School

SSLC

2018-2019

83.8 %

OBJECTIVE

Aspiring Java Backend Developer with a strong foundation in Java, Spring Boot, MySQL, and REST APIs. Seeking an opportunity to apply my technical skills, build scalable applications, and contribute to a dynamic software development team.

INTERNSHIP

Phoenix Softech

- Contributed to developing a Java-based application by assisting with design, coding, and testing.
- Gained hands-on experience in coding, debugging, and testing real-time projects.
- Learned core Java concepts and project deployment practices.

PROJECTS

Railway Reservation System

Online Train Ticket Booking & Management System

- Designed and developed a full-stack railway reservation application with user management, train booking, ticket cancellation, and PNR status tracking using RESTful APIs.
- Implemented CRUD operations and database integration with Spring Boot, Spring Data JPA, and MySQL following the MVC architecture.
- Technologies Used:** Java, Spring Boot, Spring Data JPA, MySQL, React.js.

HireFlow – Job Recruitment Platform

Full-Stack Applicant Management System

- Built REST APIs with Spring Boot and Spring Security (JWT, BCrypt), with role-based access and ownership checks for candidates, recruiters and admins.
- Designed a PostgreSQL schema with Spring Data JPA, resume upload and download, and deployed it using Docker, Render, Neon and Vercel.
- Technologies Used:** Java, Spring Boot, Spring Security, JWT, PostgreSQL, React.js, Docker.

AREA OF INTEREST

- Java Backend Developer

CERTIFICATES

- Google Data Analytics – Coursera
- Cloud Computing - NPTEL
